VISITORS

### Information:

Finger posts by Signs of the Times are manufactured using the same time proven method as the signs, resulting in a fine quality casting with clearly defined letters and borders.

Each arm panel is supplied complete with an integral aluminium fixing bracket.

Posts are painted to match arms, and include decorative collars that can be painted in a contrasting colour.

A range of finials is available to complete the look. The Pagoda and Ball finials can be painted to match the letters. The 'Polo' finial is double sided and could incorporate the name of your village, school/company logo or council crest. Bespoke finials with logos or crests cast with detail in relief.

Other sizes of arms are available. Let us know what size you are looking for and we will try to quote or we can make new patterns to your specification.
